

## A WARM WELCOME TO ONA . . .

Overseas National Airways is a certificated U.S. supplemental air carrier specializing in passenger charters. We do just one thing—charters—and we do them extremely well. As a supplemental carrier, we fly the same equipment under the same rigid safety standards, serving the same public as the scheduled carriers.

One of the largest and oldest charter airlines, with a history dating back to 1950, ONA flies over half a million people yearly between the U.S. and most tourist destinations around the world. For more than a quarter century, we've worked hard to bring you not only the best vacations, but vacations you could afford. As a carrier which has traditionally championed the cause of economical air transportation, it is satisfying to know that today practically every-

one can travel at low cost air charter rates. We want and appreciate your business.

A passenger is a valued customer, so we want you to enjoy your flight. And we work hard to be sure you do—from the ground up. ONA flight and cabin crews are highly trained professionals, FAA-certified to perform their duties. ONA inflight services rate among the best. We believe that friendly, courteous employees make the important difference in airline service—in the air and on the ground. We select our people for their friendly, cooperative attitudes and train them as a team to serve YOU.

ONA is known as "an airline that cares"—where its people care more about the Company, its business and its passengers.

## WE CARE ABOUT YOU

The spacious intercontinental McDonnell Douglas DC-10-30CF gives large passenger groups more room to more non-stop vacation destinations in greater luxury. With a range of 6500 miles, the DC-10-30CF is considered the best and most efficient aircraft available for long-haul charter service.
